persons or agents as may be designated.

§ 717.25 Disposition of ballots and records.

The county committee shall seal the voted ballots, challenged ballots found to be ineligible, spoiled ballots, unopened certification envelopes, register sheets, and community summaries for the county in one or more envelopes or packages, plainly marked with the identification of the referendum, the date, and the names of the county and State, and place them under lock in a safe place under the custody of the county office manager for a period of 30 calendar days after the date of the referendum. If no notice to the contrary is received by the end of such time, the voted ballots, challenged ballots, spoiled ballots, and unopened certification envelopes shall be destroyed, but the registers and community and county summary sheets and the register of absentee ballots shall be filed for a period of 5 years in the office of the county committee.

§ 717.26 Applicability.

The regulations contained in this part shall be applicable to all referenda held pursuant to the Agricultural Adjustment Act of 1938, as amended.

PART 718—PROVISIONS APPLICABLE TO MULTIPLE PROGRAMS

Subpart A—General Provisions

Sec.

Subpart B—Determination of Acreage and Compliance

Subpart C—Reconstitution of Farms, Allotments, Quotas, and Acreages

Subpart D—Equitable Relief From Ineligibility

Sec.

SOURCE: 61 FR 37552, July 18, 1996, unless otherwise noted.

Subpart A—General Provisions

§ 718.1 Applicability.

(a) This part is applicable to all programs set forth in chapters VII and XIV of this title which are administered by the Farm Service Agency (FSA).

(b) The provisions of this part will be administered under the general supervision of the Administrator, FSA, and shall be carried out in the field by State and county FSA committees (State and county committees).

(c) State and county committees, and representatives and employees thereof, do not have authority to modify or waive any of the provisions of the regulations of this part.

(d) The State committee shall take any action required by these regulations which has not been taken by the county committee. The State committee shall also:

(1) Correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations of this part; or

(2) Require a county committee to withhold taking any action which is not in accordance with the regulations of this part.

(e) No provisions or delegation herein to a State or county committee shall preclude the Administrator, FSA, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

(f) The Deputy Administrator may authorize State and county committees to waive or modify deadlines and other requirements in cases where lateness or failure to meet such other requirements does not adversely affect the operation of the program.

§ 718.2 Definitions.

Except as provided in individual parts of chapters VII and XIV of this title, the following terms shall be as defined herein:

Administrative variance (AV) means the amount by which the determined acreage may exceed the effective allotment and be considered in compliance with program regulations.

Agricultural Use means devoting the land to annual or perennial crops, including conserving uses, pasture, aquaculture or plantings of trees for any purpose. Land may be left fallow, but weeds must be controlled.

Allotment means an acreage for a commodity allocated to a farm in accordance with the Agricultural Adjustment Act of 1938, as amended.

Allotment crop means any crop for which acreage allotments are established pursuant to parts 723 and 729 of this chapter.

Combination means consolidation of two or more farms or parts of farms into one farm.

Contract acreage means the quantity of acres enrolled in a contract in accordance with part 1412 of this title.

Contract commodity means a crop of wheat, corn, grain sorghum, oats, barley, upland cotton, or rice.

Controlled substances means the term as set forth in accordance with 21 CFR part 1308.

County means the County or parish of a State. For Alaska, Puerto Rico and the Virgin Islands, a county shall be an area designated by the State committee with the concurrence of the Deputy Administrator.

Crop of economic significance means a crop that has contributed in the previous year, or is expected to contribute in the current crop year, 10 percent or more of the total expected value of all crops grown by the producer. However, notwithstanding the preceding sentence, if the total expected liability under the catastrophic risk protection endorsement is equal to or less than the administrative fee required for the crop, such crop will not be considered a crop of economic significance.

Crop reporting date means date established by the Administrator, FSA, representing the final date by which the farm operator, farm owner, or properly authorized agent must report applicable crop acreage for the report to be considered timely filed.

Cropland. (1) Means land which the county committee determines meets any of the following conditions:

(i) Is currently being tilled for the production of a crop for harvest;

(ii) Is not currently tilled, but it can be established that such land has been tilled in a prior year and is suitable for crop production;

(iii) Is currently devoted to a one- or two-row shelterbelt planting, orchard, or vineyard;

(iv) Is in terraces, that, were cropped in the past, even though they are no longer capable of being cropped;

(v) Is in sod waterways or filter strips planted to a perennial cover; or

(vi) Is preserved as cropland in accordance with part 704 or 1410 of this title.

(2) Land classified as cropland shall be removed from such classification upon a determination by the county committee that the land is:

(i) No longer used for agricultural production;

(ii) No longer suitable for production of crops;

(iii) Subject to a restrictive easement or contract that prohibits its use for the production of crops unless otherwise authorized by the regulation of this chapter;

(iv) No longer preserved as cropland in accordance with the provisions of part 704 or 1410 of this title and does not meet the conditions in paragraphs (1)(i) through (1)(vi) of this definition; or

(v) Devoted to trees (other than those set forth in accordance with part 704 or 1410 of this title, one- or two-row shelterbelt plantings, orchards, or vineyards) which were planted in the preceding year except that land planted to trees or devoted to ponds, lakes, or tanks from September 1 through December 31 of the preceding year shall retain its cropland classification for the succeeding year, and in the current year shall retain its cropland classification for the current year.

Current year means the year for which applicable allotments, quotas, and acreages, or other program determinations are established for that program. For controlled substance violations, the year that contains the date of actual conviction.

Deputy Administrator means Deputy Administrator for Farm Programs, Farm Service Agency, U.S. Department of Agriculture or a designee.

Determination means a decision issued by a State, county or area FSA committee or the employees of such a committee that affects a participant's participation in a program administered by FSA.

Determined acreage means that acreage established by a representative of the Department of Agriculture by use of official acreage, digitizing or planimetering areas on the photograph or other photographic image, or computations from scaled dimensions or ground measurements.

Division means the division of a farm into two or more farms or parts of farms.

Entity means a corporation, joint stock company, association limited partnership, irrevocable trust, estate, charitable organization, or other similar organization including any such organization participating in the farming operation as a partner in a general partnership, a participant in a joint venture, a grantor of a revocable trust, or as a participant in a similar organization.

Family member means an individual to whom a person is related as spouse, lineal ancestor, lineal descendant, or sibling, including:

(1) Great grandparent;

(2) Grandparent;

(3) Parent;

(4) Child, including legally adopted children;

(5) Great grandchildren;

(6) Sibling of the family member in the farming operation; and

(7) Spouse of a person listed in paragraphs (1) through (6) of this definition.

Farm means land that is being operated by one producer with equipment, labor, accounting system and management substantially separate from that of any other unit. Land on which tenants provide their own labor and equipment shall not be considered a separate farm.

Farm inspection (spot-check) means an inspection by an authorized FSA representative using aerial or ground compliance to determine the extent of producer adherence to program requirements.

Farm number means serial number assigned to a farm by the county committee for the purpose of identification.

Farm program payment yield means the yield for a crop which is determined in accordance with part 1413 of this title as in effect on January 2, 1996.

Farmland means the sum of the cropland, forest, and other land on the farm.

Field means a part of a farm which is separated from the balance of the farm

by permanent boundaries such as fences, permanent waterways, woodlands, and croplines in cases where farming practices make it probable that such cropline is not subject to change, or other similar features.

Ground measurement means the distance between 2 points on the ground, obtained by actual use of a chain tape, or other measuring device, that is expressed in chains and links.

Joint operation means a general partnership, joint venture, or other similar business organization.

Landlord means one who rents or leases farmland to another.

Measurement service means a measurement of acreage or farm-stored commodities performed by a representative of FSA and paid for by the producer requesting the measurement.

Measurement service guarantee means a guarantee provided when a producer requests and pays for an authorized FSA representative to measure acreage for FSA and CCC program participation unless the producer takes action to adjust the measured acreage. If the producer has taken no such action, and the measured acreage is later discovered to be incorrect, the acreage determined pursuant to the measurement service will be used for program purposes for that program year.

Measurement service after planting means determining a crop or designated acreage after planting but before the farm operator files a report of acreage for the crop.

Minor child means an individual who is under 18 years of age. Court proceedings conferring majority on an individual under 18 years of age will not change such an individual's status as a minor.

Nonagricultural commercial or industrial use means land that is no longer suitable for producing annual or perennial crops, including conserving uses, or forestry products.

Normal planting period means that period during which the crop is normally planted in the county, or area within the county, with the expectation of producing a normal crop.

Normal row width means the normal distance between rows of the crop in the field, but not less than 30 inches for all crops.

Operator means an individual, entity, or joint operation who is determined by the county committee as being in general control of the farming operations on the farm during the current year.

Owner means one who has legal ownership of farmland, including one:

(1) Who is buying farmland under a contract for deed;

(2) Who has a life-estate in the property; or

(3) (i) For purposes of enrolling a farm in a program authorized by chapters VII and XIV of this title one who has purchased a farm in a foreclosure proceeding and:

(A) The redemption period has not passed; and

(B) The original owner has not redeemed the property.

(ii) One who meets the provisions of paragraph (3)(i) of this definition shall be entitled to receive benefits in accordance with such a program only to the extent the owner complies with all program requirements.

Partial reconstitution means a reconstitution that is made effective in the current year for some crops, but is not made effective in the current year for other crops, which results in having two or more farm numbers for the same farm.

Participant means one who participates in, or receives payments or benefits in accordance with any of the programs administered by FSA.

Pasture means land that is used to, or has the potential to, produce food for grazing animals.

Person means an individual, or an individual participating as a member of a joint operation or similar operation, a corporation, joint stock company, association, limited stock company, limited partnership, irrevocable trust, revocable trust together with the grantor of the trust, estate, or charitable organization including any entity participating in the farming operation as a partner in a general partnership, a participant in a joint venture, a grantor of a revocable trust, or a participant in a similar entity, or a State, political subdivision or agency thereof. To be considered a separate person for the purpose of this part, the individual or other legal entity must:

(1) Have a separate and distinct interest in the land or the crop involved;

(2) Exercise separate responsibility for such interest; and

(3) Be responsible for the cost of farming related to such interest from a fund or account separate from that of any other individual or entity.

Producer means an owner, operator, landlord, tenant, or sharecropper, who shares in the risk of producing a crop and who is entitled to share in the crop available for marketing from the farm, or would have shared had the crop been produced. A producer includes a grower of hybrid seed.

Production flexibility contract means a contract entered in accordance with part 1412 of this title.

Prohibited plants means marijuana (cannabis sativa), opium poppies (papaver somniferum), coca bushes (erythroxylum coca), cacti of the genus lophophora and other drug producing plants, the planting or harvesting of which is prohibited by Federal or State law.

Random inspection means an examination of a farm by an authorized representative of FSA selected as a part of an impartial sample to determine the adherence to program requirements.

Quota means the pounds allocated to a farm for a commodity in accordance with the Agricultural Adjustment Act of 1938, as amended.

Reconstitution means a change in the land constituting a farm as a result of combination or division.

Reported acreage means the acreage reported by the farm operator, farm owner, or a properly authorized agent on form FSA–578, Report of Acreage, or other form designated by the Deputy Administrator.

Required inspection means an examination by an authorized representative of FSA of a farm specifically selected by application of prescribed rules to determine the producer's adherence to program requirements or to verify the farm operator's, farm owner's, or properly authorized agent's report.

Secretary means the Secretary of Agriculture of the United States, or a designee.

Sharecropper means one who performs work in connection with the production of a crop under the supervision of the operator and who receives a share of such crop for its labor.

Skip-row or strip-crop planting means a cultural practice in which strips or rows of the crop are alternated with strips of idle land or another crop.

Staking and referencing means determining an acreage before planting by:

(1) Measuring a delineated area on photography or computing the chains and links from ground measurement and sketching the field or subdivision of a field; and,

(2) Staking and referencing the area on the ground.

Standard deduction means an acreage that is excluded from the gross acreage in a field because such acreage is considered as being used for farm equipment turn-areas. Such acreage is established by application of a prescribed percentage of the area planted to the crop in lieu of measuring the turn area.

State means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, the Commonwealth of the Northern Mariana Islands, or the Trust Territory of the Pacific Islands.

Subdivision means a part of a field that is separated from the balance of the field by temporary boundary, such as a cropline which could be easily moved or will likely disappear.

Tenant means:

(1) One who rents land from another in consideration of the payment of a specified amount of cash or amount of a commodity; or

(2) One (other than a sharecropper) who rents land from another person in consideration of the payment of a share of the crops or proceeds therefrom.

Tolerance means for marketing quota crops, and peanuts, a prescribed amount within which the reported acreage may differ from the determined acreage and still be considered as correctly reported.

Tract means a unit of contiguous land under one ownership which is operated as a farm or part of a farm.

Tract combination means the combining of two or more tracts if the tracts have common ownership and are contiguous.

Tract division means the dividing of a tract into two or more tracts because of a change in ownership or operation.

Turn-area means the area across the ends of crop rows which is used for operating equipment necessary to the production of a row crop (also called turnrow, headland, or endrow).

§ 718.3 State committee responsibilities.

(a) The State committee shall, with respect to county committees:

(1) Take any action required of the county committee which the county committee fails to take in accordance with this part;

(2) Correct or require the county committee to correct any action taken by such committee which is not in accordance with this part;

(3) Require the county committee to withhold taking any action which is not in accordance with this part;

(4) Review county office rates for producer services to determine equity between counties;

(5) Determine, based on cost effectiveness, which counties will use aerial compliance methods and which counties will use ground measurement compliance methods; or

(6) Adjust the per acre rate for acreage in excess of 25 acres to reflect the actual cost involved when performing measurement service from aerial slides.

(b) The State committee shall submit to the Deputy Administrator for Farm Programs, requests to deviate from deductions prescribed in § 718.108 of this part, or the error amount or percentage for refunds of redetermination costs as prescribed in § 718.111.

§ 718.4 Authority for farm entry and providing information.

(a) The provisions of this section are applicable to any farm enrolled in a program authorized by chapter XIV of this title, all farms on which peanuts are planted for harvest (part 729 of this chapter), and all farms that have an effective tobacco allotment or quota (part 723 of this chapter).

(b) To ascertain compliance by producers to the regulations specified in paragraph (a), a representative of FSA may enter any farm specified in such paragraph. An owner, operator or producer on a farm may refuse the FSA representative entry to the farm and request FSA to provide written authorization for the entry. If entry is not allowed within 30 days of such written notification:

(1) All program benefits otherwise available with respect to such farm in accordance with such regulations shall be denied;

(2) The person objecting to the entry shall pay all costs associated with cost of the inspection by FSA of the farm;

(3) The entire crop production on the farm will be considered to be in excess of the quota established for the farm; and

(4) With respect to tobacco produced on such farm, the farm operator must furnish proof of disposition of:

(i) Burley and flue-cured tobacco which is in addition to the production shown on the marketing card issued with respect to such farm; and

(ii) Other kinds of tobacco produced on the farm and no credit will be given for disposing of any excess tobacco other than properly identified by a marketing card unless such tobacco is disposed of in the presence of a representative of FSA in accordance with § 718.109.

(c) If an owner or operator of a farm refuses to furnish reports or data which are necessary to determine benefits in accordance with the regulations specified in paragraph (a) or FSA determines that the report or data was erroneously provided through the lack of good faith by the operator or owner, all benefits will be denied with respect to the farm which would otherwise be available in accordance with the program under which the report or data is requested.

§ 718.5 Delegations of authority.

The State committee or State Executive Director, as authorized by the Deputy Administrator may, in accordance with instructions issued, exercise the authority provided in this part in cases where the total of any payments and benefits extended under chapters VII and XIV of this title does not exceed:

(a) $5,000 for cases subject to § 718.8; or

(b) $25,000 for cases subject to § 718.9.

§ 718.6 Signature requirements and time limitations.

(a) When a program authorized by this chapter and parts 1410 and 1412 of this title requires the signature of a producer; landowner; landlord; or tenant, a husband or wife may sign all such FSA or CCC documents on behalf of the other spouse, unless such other spouse has provided written notification to FSA and CCC that such action is not authorized. The notification must be provided to the county FSA office which administers FSA and CCC programs with respect to each farm.

(b) Except a husband or wife may not sign a document on behalf of a spouse with respect to:

(1) Program documents required to be executed in accordance with part 3 of this title and part 704 of this chapter;

(2) Easements entered into under part 1410 of this title;

(3) Form FSA–211, Power of Attorney and Form FSA–211–1, Power of Attorney for Husband and Wife; and

(4) Such other program documents as determined by FSA or CCC.

(c) Whenever the final date prescribed in any of the regulations in this title for the performance of any act falls on a Saturday, Sunday, national holiday, State holiday on which the office of the county or State Farm Service Agency committee having primary cognizance of the action required to be taken is closed, or any other day on which the cognizant office is not open for the transaction of business during normal working hours, the time for taking required action shall be extended to the close of business on the next working day. Or in case the action required to be taken may be performed by mailing, the action shall be considered to be taken within the prescribed period if the mailing is postmarked by midnight of such next working day. Where the action required to be taken is within a prescribed number of days after the mailing of notice, the day of mailing shall be excluded in computing such period of time.

§ 718.7 Failure to fully comply.

In any case in which the failure of a producer to fully comply with the terms and conditions of a program authorized by this chapter precludes the making of price support to such producer, the Deputy Administrator for Farm Programs may authorize the making of such price support in such amounts as determined to be equitable in relation to the seriousness of the failure if the regulations of this title authorizing the program specifically authorize such action. The provisions of this part shall only be applicable to producers who are determined to have made a good faith effort to comply fully with the terms and conditions of the program and rendered substantial performance.

§ 718.8 Incomplete performance based upon action or advice of an authorized representative of the Secretary.

(a) Notwithstanding any other provision of the law, performance rendered in good faith based upon action of, or information provided by, any authorized representative of a County or State Farm Service Agency Committee, may be accepted by the Administrator, FSA (Executive Vice President, CCC), the Associate Administrator, FSA (Vice President, CCC), or the Deputy Administrator for Farm Programs, FSA (Vice President, CCC), as meeting the requirements of the applicable program, and benefits may be extended or payments may be made therefor in accordance with such action or advice to the extent it is deemed desirable in order to provide fair and equitable treatment.

(b) The provisions of this section shall be applicable only if a producer relied upon the action of a county or State committee or an authorized representative of such committee or took action based on information provided by such representative. The authority provided in this part does not extend to cases where the producer knew or had sufficient reason to know that the action or advice of the committee or its authorized representative upon which they relied was improper or erroneous, or where the producer acted in reliance on their own misunderstanding or misinterpretation of program provisions, notices, or advice.

§ 718.9 Finality rule.

(a) A determination by a State or county committee made on or after October 13, 1994, becomes final and binding 90 days from the date the application for benefits has been filed, and supporting documentation required to be supplied by the producer as a condition for eligibility for the particular program has been filed unless one of the following conditions exist:

(1) The participant has requested an administrative review of the determination in accordance with the provisions of part 780 of this chapter;

(2) The determination was based on misrepresentation, false statement, fraud, or willful misconduct by or on behalf of the participant;

(3) The determination was modified by the Administrator, FSA, or the Executive Vice President, CCC; or

(4) The participant had reason to know that the determination was erroneous.

(b) Should an erroneous determination become final under the provisions of this section, it shall only be effective through the year in which the error was found and communicated to the participant.

§ 718.10 Rule of fractions.

(a) Rounding of fractions shall be done after the completion of the entire computation which is being made. In making mathematical determinations all computations shall be carried to two decimal places beyond the required number of decimal places as specified in the regulations governing each program. In rounding, fractional digits of 49 or less beyond the required number of decimal places shall be dropped; if the fractional digits beyond the required number of decimal places are 50 or more, the figure sat the last required decimal place shall be increased by ''1'' as follows:

Required decimal	Computation	Result
Whole numbers	6.49 (or less)	6
	6.50 (or more)	7
Tenths	7.649 (or less)	7.6
	7.650 (or more)	7.7
Hundredths	8.8449 (or less)	8.84
	8.8450 (or more)	8.85
Thousandths	9.63449 (or less)	9.634
	9.63450 (or more)	9.635
10 thousandths	10.993149 (or less)	10.9931
	10.993150 (or more)	10.9932

(b) The acreage of each field or subdivision computed for tobacco and CCC disaster assistance programs shall be recorded in acres and hundredths of an acre, dropping all thousandths of an acre. The acreage of each field or subdivision computed for crops, except tobacco, shall be recorded in acres and tenths of an acre, rounding all hundredths of an acre to the nearest tenth.

§ 718.11 Denial of benefits.

(a) For the purposes of this section, a person means an individual.

(b) Any person convicted under Federal or State law of planting, cultivating, growing, producing, harvesting, or storing a controlled substance, as defined in 21 CFR part 1308, shall be ineligible for, with respect to any commodity produced during the same year and the next succeeding four years:

(1) Any price support loan available in accordance with parts 1446 and 1464 of this title;

(2) Any price support or payment made under the Commodity Credit Corporation Charter Act;

(3) A farm storage facility loan made under section 4(h) of the Commodity Credit Corporation Charter Act;

(4) Crop Insurance under the Federal Crop Insurance Act;

(5) A loan made, insured or guaranteed under the Consolidated farm and Rural Development Act or any other provision of law formerly administered by the Farmers Home Administration; or

(6) Any payment made under any Act.

(c) If any person denied benefits under this part is a beneficiary of a trust, benefits for which the trust is eligible shall be reduced, for the appropriate period, by a percentage equal to the total interest of the beneficiary in the trust.

[61 FR 37552, July 18, 1996, as amended at 62 FR 25437, May 9, 1997]

§ 718.12 Furnishing maps.

The cost of furnishing reproductions of photographs, mosaics and maps is free upon request to the farm operator,

owner, Federal Crop Insurance Corporation (FCIC) and reinsured companies, Natural Resources Conservation Service (NRCS) and other Federal or State Agencies performing their official duties in making FSA and related program determinations. To all others, reproductions shall be made available at the rate FSA determines will cover the cost of making such items available.

Subpart B—Determination Of Acreage and Compliance

§ 718.101 Measurements.

(a) Measurement services include, but are not limited to, measuring land and crop areas, quantities of farm-stored commodities, and appraising the yields of crops when required for program administration purposes. The county committee shall provide measurement service if the producer requests such service and pays the cost, except that service shall not be provided to determine total acreage of a crop when the request is made:

(1) After the established final reporting date for the applicable crop except as provided in § 718.103;.

(2) After the farm operator has furnished the county office production evidence when required for program administration purposes except as provided in this subpart; or

(3) In connection with a late-filed report of acreage, unless there is evidence of the existence and use made of the crop, the lack of the crop or a disaster condition affecting the crop.

(b) The acreage requested to be measured by staking and referencing shall not exceed the effective farm allotment for marketing quota crops or acreage of a crop that is limited to a specific number of acres to meet any program requirement.

(c) When a producer requests, pays for, and receives written notice that measurement services have been furnished, the measured acreage shall be guaranteed to be correct and used for all program purposes for the current year even though an error is later discovered in the measurement thereof, if the producer has taken action with an economic significance based on the measurement service, and the entire crop required for the farm was measured. If the producer has not taken action with an economic significance based on the measurement service, the producer shall be notified in writing that an error was discovered and the nature and extent of such error. In such cases, the corrected acreage will be used for determining program compliance for the current year.

(d) When a measurement service reveals acreage in excess of the permitted acreage by more than the allowable tolerance, the producer must destroy the excess acreage and pay for an authorized employee of FSA to verify destruction, in order to keep the measurement service guarantee.

§ 718.102 Acreage reports.

(a) In order to be eligible for benefits, participants in the programs specified in paragraph (b)(1) through (3) of this section and those who are subject to the regulations cited in paragraph (b)(4) and (5) of this section must submit accurate information as required by these provisions.

(b)(1) Participants in the program authorized by part 1412 of this title must report the acreage of fruits and vegetables planted for harvest on a farm enrolled in such program;

(2) Participants in the programs authorized by parts 1421 and 1427 of this title must report the acreage planted to a commodity for harvest for which a marketing assistance loan or loan deficiency payment is requested; and

(3) Participants in the programs authorized by parts 704 and 1410 of this title must report the use of the land enrolled in such programs;

(4) Participants in the programs authorized by parts 723 and 1464 of this title must report the acreage planted to tobacco by kind on all farms that have an effective allotment or quota greater than zero; provided further that for burley tobacco each person who owns a farm for which a burley quota is established must report the acreage planted to burley tobacco, including instances in which the acres planted are zero acres; and

(5) Participants in the programs authorized by parts 729 and 1446 of this title must report the acreage planted to peanuts by type.

(c) The reports required under paragraph (a) of this section shall be timely filed by the farm operator, farm owner, or a duly authorized representative with the county committee by the final reporting date applicable to the crop as established by the county committee and State committee.

(d) Peanut producers shall provide the county office evidence of disposition of any peanuts that are kept on the farm, including:

(1) Type and quantity for use for seed on any farm in which the producer has an interest; and

(2) Type, quantity, names, and addresses of purchases for peanuts sold or given to others.

(e) Peanut producers shall provide the county office information for acquisition of seed peanuts from other sources, including:

(1) Name and address of person who sold or gave producer the peanuts;

(2) Type, farmer's stock or shelled basis, and quantity; and

(3) Acquisition date.

[61 FR 37552, July 18, 1996, as amended at 66 FR 53509, Oct. 23, 2001]

§ 718.103 Late-filed reports.

(a) A farm operator's report may be accepted after the established date for reporting if evidence is still available for inspection which may be used to make a determination with respect to the existence and use made of the crop, the lack of the crop or a disaster condition affecting the crop.

(b) The farm operator shall pay the cost of a farm visit by an authorized FSA employee unless the County Committee has determined that failure to report in a timely manner was beyond the producer's control.

§ 718.104 Revised reports.

(a) The farm operator may revise a report of acreage with respect to 1996 and subsequent years to change the acreage reported if the county committee determines that the revision does not have an adverse impact on the program and the acreage has not already been determined by FSA.

(b) Revised reports shall be filed and accepted:

(1) At any time for all crops if evidence exists for inspection and determination of the existence and use made of the crop, the lack of the crop, or a disaster condition affecting the crop; and

(2) If the requirements of paragraph (a) have been met and the producer was in compliance with all other program requirements by the applicable established crop reporting date.

§ 718.105 Tolerances, variances, and adjustments for tobacco and peanuts.

(a) Tolerance or variance for tobacco and peanuts is the amount by which the determined acreage may differ from the reported acreage or allotment and still be considered in compliance with program requirements. Tolerance or variance for tobacco is the amount by which the determined acreage may differ from the reported acreage or allotment and still be considered in compliance with program requirements.

(b) Tolerance rules apply to those fields for which a staking and referencing was performed but such acreage was not planted according to those measurements or when a measurement service is not requested for acreage destroyed to meet program requirements. Tolerance rules do not apply to:

(1) Official fields when the entire field is devoted to one crop;

(2) Those fields for which staking and referencing was performed and such acreage was planted according to those measurements; or

(3) The adjusted acreage for farms using measurement after planting which have a determined acreage greater than the marketing quota crop allotment.

(c) An administrative variance is applicable to all marketing quota crop acreages. Marketing quota crop acreages as determined in accordance with this part shall be deemed in compliance with the effective farm allotment or program requirement when the determined acreage does not exceed the effective farm allotment by more than an administrative variance determined as follows:

(1) For all kinds of tobacco subject to marketing quotas, except dark air-cured and fire-cured the larger of 0.1 acre or 2 percent of the allotment; and

(2) For dark air-cured and fire-cured tobacco, an acreage based on the effective acreage allotment as provided in the table as follows:

Effective acreage allotment is within this range	Administrative variance
0.01 to 0.99	0.01
1.00 to 1.49	0.02
1.50 to 1.99	0.03
2.00 to 2.49	0.04
2.50 to 2.99	0.05
3.00 to 3.49	0.06
3.50 to 3.99	0.07
4.00 to 4.49	0.08
4.50 and up	0.09

(d) A tolerance applies to tobacco other than flue-cured or burley, if the determined acreage exceeds the allotment by more than the administrative variance but by not more than the tolerance. Such excess acreage of tobacco may be adjusted to the effective farm acreage allotment to avoid marketing quota penalties or receive price support.

(e) Tolerance for peanuts is the larger of 1.0 acre or 5 percent of the reported acreage, not to exceed 10.0 acres.

[61 FR 37552, July 18, 1996, as amended at 65 FR 8246, Feb. 18, 2000]

§ 718.106 Acreages.

(a) If an acreage has been established by a representative of FSA for an area delineated on an aerial photograph, such acreage will be recognized by the county committee as the official acreage for the area until such time as the boundaries of such area are changed. When boundaries not visible on the aerial photograph are established from data furnished by the producer, such acreage shall not be recognized as official acreage until the boundaries are verified by an authorized representative of FSA.

(b) Measurements of any row crop shall extend beyond the planted area by the larger of 15 inches or one-half the distance between the rows.

(c) The entire acreage of a field or subdivision of a field devoted to a crop shall be considered as devoted to the crop subject to any allowable deduction or adjustment credit except as otherwise provided in this part.

§ 718.107 Measuring acreage including skip row acreage.

(a) When one crop is alternating with another crop, whether or not both crops have the same growing season, only the acreage that is actually planted to the crop being measured will be considered to be acreage devoted to the measured crop.

(b) Subject to the provisions of this paragraph and section, whether planted in a skip row pattern or without a pattern of skipped rows, the entire acreage of the field or subdivision may be considered as devoted to the crop only where the distance between the rows, for all rows, is 40 inches or less. If there is a skip that creates idle land wider than 40 inches, or if the distance between any rows is more than 40 inches, then the area planted to the crop shall be considered to be that area which would represent the smaller of: a 40-inch width between rows, or the normal row spacing in the field for all other rows in the field—those that are not more than 40 inches apart. The allowance for individual rows would be made based on the smaller of: actual spacing between those rows, or the normal spacing in the field. For example, if the crop is planted in single wide rows that are 48 inches apart, only 20 inches to either side of each row (for a total of 40 inches between the two rows) could, at a maximum, be considered as devoted as the crop and normal spacing in the field would control. Half the normal distance between rows will also be allowed beyond the outside planted rows not to exceed 20 inches and will reflect normal spacing in the field.

(c) In making calculations under this section, further reductions may be made in the acreage considered planted to the extent it is determined that the acreage is more sparsely planted than would be normal using reasonable and customary full production planting techniques.

(d) The Deputy Administrator for Farm Programs has the discretionary authority to allow row allowances other than those specified in this section in those instances in which crops are normally planted with spacings greater or less than 40 inches, such as in the case of tobacco, or where other

circumstances are presented which the Deputy Administrator finds justifies that allowance.

(e) Paragraphs (a) through (d) of this section shall apply with respect to the 2003 and subsequent crops. For preceding crops, the rules in effect on January 1, 2002, shall apply.

[67 FR 71798, Dec. 3, 2002]

§ 718.108 Deductions.

(a) Any contiguous area which is not devoted to the crop being measured and which is not part of a skip-row pattern under § 718.107 shall be deducted from the acreage of the crop if such area meets the following minimum national standards or requirements:

(1) A minimum width of 30 inches;

(2) For tobacco, three-hundredths acre, except that turn areas, terraces, permanent irrigation and drainage ditches, sod waterways, noncropland, and subdivision boundaries each of which is at least 30 inches in width may be combined to meet the 0.03-acre minimum requirement; or

(3) For all other crops and land uses, one-tenth acre. Turn areas, terraces, permanent irrigation and drainage ditches, sod waterways, noncropland, and subdivision boundaries each of which is at least 30 inches in width and each of which contain 0.1 acre or more may be combined to meet any larger minimum prescribed for a State in accordance with this subpart.

(b) If the area not devoted to the crop is located within the planted area, the part of any perimeter area that is more than 33 links in width will be considered to be an internal deduction if the standard deduction is used.

(c) A standard deduction of 3 percent of the area devoted to a row crop and zero percent of the area devoted to a close-sown crop may be used in lieu of measuring the acreage of turn areas.

§ 718.109 Adjustments.

(a) The farm operator or other interested producer having excess tobacco acreage (other than flue-cured or burley) may adjust an acreage of the crop in order to avoid a marketing quota penalty if such person:

(1) Notifies the county committee of such election within 15 calendar days after the date of mailing of notice of excess acreage by the county committee; and

(2) Pays the cost of a farm visit to determine the adjusted acreage prior to the date the farm visit is made.

(b) The farm operator may adjust an acreage of tobacco (except flue-cured and burley) by disposing of such excess tobacco prior to the marketing of any of the same kind of tobacco from the farm. The disposition shall be witnessed by a representative of FSA and may take place before, during, or after the harvesting of the same kind of tobacco grown on the farm. However, no credit will be allowed toward the disposition of excess acreage after the tobacco is harvested but prior to marketing, unless the county committee determines that such tobacco is representative of the entire crop from the farm of the kind of tobacco involved.

§ 718.110 Notice of measured acreage.

Written notice of measured acreage shall be on Form FSA–468, Notice of Determined Acreage, when mailed to the farm operator and shall constitute notice to all interested producers on the farm.

§ 718.111 Redetermination.

(a) A redetermination of crop acreage, appraised yield, or farm-stored production for a farm may be initiated by the county committee, State committee, or Deputy Administrator at any time. Such redeterminations may also be initiated by a producer who has an interest in the farm upon filing a request within 15 calendar days after the date of the notice furnished the farm operator in accordance with § 718.109 or § 718.110 or within 5 calendar days after the initial appraisal of the yield of a crop or before any of the farm-stored production is removed from storage and upon payment of the cost of making such redetermination. A redetermination shall be undertaken in the manner prescribed by the Deputy Administrator. Such redetermination shall be used in lieu of any prior determination.

(b) The county committee shall refund the payment of the cost for a redetermination when, because of an error in the initial determination:

(1) The appraised yield is changed by at least the larger of:

(i) Five percent or 5 pounds for cotton;

(ii) Five percent or 1 bushel for wheat, barley, oats, and rye; or

(iii) Five percent or 2 bushels for corn and grain sorghum; or

(2) The farm stored production is changed by at least the smaller of 3 percent or 600 bushels; or

(3) The acreage of the crop is:

(i) Changed by at least the larger of 3 percent or 0.5 acre; or

(ii) Considered to be within program requirements.

Subpart C—Reconstitution of Farms, Allotments, Quotas, and Acreages

§ 718.201 Farm constitution.

(a) Land which has been properly constituted under prior regulations shall remain so constituted until a reconstitution is required under paragraph (c) of this section. The constitution and identification of land as a farm for the first time and the subsequent reconstitution of a farm made hereafter, shall include all land operated by one person as a single farming unit except that it shall not include:

(1) After August 1, 1996, land subject to a production flexibility contract with land not subject to a production flexibility contract;

(2) Land under separate ownership unless the owners agree in writing;

(3) Land under a lease agreement of less than 1 year duration;

(4) Land in different counties when the tobacco allotments or quotas established for the land involved cannot be transferred from one county to another county by lease, sale, or owner. However, this paragraph shall not apply if:

(i) All of the land is owned by one person and operated by one person and all such land is contiguous;

(ii) Two or more tracts are located in counties that are contiguous in the same State and are owned by the same person if:

(A) A burley or flue-cured tobacco quota is established for one or more of the tracts; and

(B) The county committee determines that the tracts will be operated as a single farming unit as set forth in § 718.202; or

(iii) Because of a change in operation, tracts or parts of tracts will be divided from the parent farm that currently has land in more than one county, and there is no change in operation and ownership of the remainder of the farm, or if there is a change in ownership, the new owner agrees in writing to the constitution of the farm.

(5) Federally owned land;

(6) State-owned wildlife land unless the former owner has possession of the land under a leasing agreement;

(7) Land constituting a farm which is declared ineligible to be enrolled in a program under the regulations governing the program;

(8) For land subject to production flexibility contracts, land located in counties that are not contiguous. However, this subparagraph shall not apply if:

(i) Counties are divided by a river;

(ii) Counties do not touch because of a correction line adjustment; or

(iii) The land is within 20 miles, by road, of other land that will be a part of the farming unit; and

(9) With respect to peanut poundage quotas, land across:

(i) County lines when the quotas established for the land involved cannot be transferred; or

(ii) State lines.

(b)(1) If all land on the farm is physically located in one county, the farm records shall be administratively located in such county. If there is no FSA office in the county or the county offices have been consolidated, the farm shall be administratively located in the contiguous county most convenient for the farm operator.

(2) If the land on the farm is located in more than one county, the farm shall be administratively located in either of such counties as the county committees and the farm operator agree. If no agreement can be reached, the farm shall be administratively located in the county where the principal dwelling is situated, or where the major portion of the farm is located if there is no dwelling.

(c) A reconstitution of a farm either by division or by combination shall be required whenever:

(1) A change has occurred in the operation of the land after the last constitution or reconstitution and as a result of such change the farm does not meet the conditions for constitution of a farm as set forth in paragraph (b) except that no reconstitution shall be made if the county committee determines that the primary purpose of the change in operation is to establish eligibility to transfer allotments subject to sale or lease;

(2) The farm was not properly constituted under the applicable regulations in effect at the time of the last constitution or reconstitution;

(3) An owner requests in writing that the owner's land no longer be included in a farm which is composed of tracts under separate ownership;

(4) The county committee determines that the farm was reconstituted on the basis of false information furnished by the owner or farm operator;

(5) The county committee determines that the tracts of land included in a farm are not being operated as a single farming unit;

(6) An owner of a farm, constituted as a single farming unit prior to 1978, which is comprised of land located in two or more counties for which there is a quota or allotment established for such farm and such quota or allotment is subject to lease and transfer restrictions across county lines, requests in writing that the farm be reconstituted by dividing the tracts. The resulting farms shall be administratively serviced by the county office serving the county in which the land is geographically located; or

(7) Land is sold for or devoted to nonagricultural commercial or industrial uses; however, a reconstitution is not required and allotments, quotas and acreages may remain with the farm if either of the following apply:

(i) The land is already devoted to residential, recreational, industrial or commercial buildings; or

(ii) The owner would qualify to use the landowner designation method of division in accordance with § 718.205 or the allotments and quotas can be transferred by sale or owner in accordance with this part and parts 723 or 729 of this chapter and the owner of the parent farm and the purchaser file a signed written memorandum of understanding before Form FSA–476 or Form MQ–24 is issued, stating that the land will be devoted immediately or within 3 years to:

(1) Nonagricultural commercial uses; or

(2) Recreational, residential, industrial or non-farm commercial uses.

(d) Notwithstanding the provisions of paragraphs (c)(1) through (c)(7), a reconstitution shall not be approved if the county committee determines that the primary purpose of the reconstitution is to:

(1) Circumvent the provisions of part 12 of this title; or

(2) Circumvent any other chapter of this title.

[61 FR 37552, July 18, 1996, as amended at 65 FR 7953, Feb. 16, 2000]

§ 718.202 Determining the land constituting a farm.

(a) In determining the constitution of a farm, consideration shall be given to provisions such as ownership and operation. For purposes of this part, the following rules shall be applicable to determining what land is to be included in a farm.

(b) A minor shall be considered to be the same owner or operator as the parent or court-appointed guardian (or other person responsible for the minor child) unless:

(1) The minor child is a producer on a farm;

(2) Neither the minor's parents nor guardian has any interest in the minor's farm or production from the farm;

(3) The minor establishes and maintains a separate household from the parent or guardian;

(4) Personally carries out the farming activities in the operation; and

(5) Maintains a separate accounting for the farming operation.

(c) Notwithstanding paragraph (b) of this section, a minor shall not be considered to be the same owner or operator as the parent or court-appointed guardian if the minor's interest in the farming operation results from being the beneficiary of an irrevocable trust

and ownership of the property is vested in the trust or the minor.

(d) A life estate tenant shall be considered to be the owner of the property for their life.

(e) A trust shall be considered to be an owner with the beneficiary of the trust; except a trust can be considered a separate owner or operator from the beneficiary, if the trust:

(1) Has a separate and distinct interest in the land or crop involved;

(2) Exercises separate responsibility for the separate and distinct interest; and

(3) Maintains funds and accounts separate from that of any other individual or entity for the interest.

§ 718.203 County committee action to reconstitute a farm.

Action to reconstitute a farm may be initiated by the county committee, the farm owner, or the operator with the concurrence of the owner of the farm. Any request for a farm reconstitution shall be filed with the county committee.

§ 718.204 Reconstitution of allotments, quotas, and acreages.

(a) Farms shall be reconstituted in accordance with this subpart when it is determined that the land areas are not properly constituted and, to the extent practicable, shall be based on the facts and conditions existing at the time the change requiring the reconstitution occurred.

(b) Reconstitutions of farms subject to a production flexibility contract in accordance with part 1412 of this title will be effective for the current year if initiated on or before July 1 of the fiscal year.

(c) For tobacco and peanut farms, a reconstitution will be effective for the current year for each crop for which the reconstitution is initiated before the planting of such crop begins or would have begun.

(d) Notwithstanding the provisions of paragraph (b) and (c) of this section, a reconstitution may be effective for the current year if the county committee, with the concurrence of the State committee, determines that the purpose of the request for reconstitution is not to perpetrate a scheme or device the effect of which is to avoid the statutes and regulations governing commodity programs found in this title.

§ 718.205 Rules for determining farms, allotments, quotas, and acreages when reconstitution is made by division.

(a) The methods for dividing farms, allotments, quotas, and acreages in order of precedence, when applicable, are estate, designation by landowner, contribution, agricultural use, cropland, and history. The proper method shall be determined on a crop by crop basis.

(b)(1) The estate method is the proration of allotments, quotas, and acreages for a parent farm among the heirs in settling an estate. If the estate sells a tract of land before the farm is divided among the heirs, the allotments, quotas, and acreages for that tract shall be determined by using one of the methods provided in paragraphs (c) through (g) of this section.

(2) Allotments, quotas, and acreages shall be divided in accordance with a will, but only if the county committee determines that the terms of the will are such that a division can reasonably be made by the estate method.

(3) If there is no will or the county committee determines that the terms of a will are not clear as to the division of allotments, quotas, and acreages, such allotments, quotas, and acreages shall be apportioned in the manner agreed to in writing by all interested heirs or devisees who acquire an interest in the property for which such allotments, quotas, and acreages have been established. An agreement by the administrator or executor shall not be accepted in lieu of an agreement by the heirs or devisees.

(4) If allotments, quotas, and acreages are not apportioned in accordance with the provisions of paragraph (b)(2) or (3) of this section, the allotments, quotas, and acreages shall be divided pursuant to paragraphs (d) through (g) of this section, as applicable.

(c)(1) If the ownership of a tract of land is transferred from a parent farm, the transferring owner may request that the county committee divide the allotments, quotas, and acreages, including historical acreage that has

been doublecropped, between the parent farm and the transferred tract, or between the various tracts if the entire farm is sold to two or more purchasers, in a manner designated by the owner of the parent farm subject to the conditions set forth in paragraph (c)(4) of this section. In the case of land subject to a Wetlands Reserve Program easement or Emergency Wetlands Reserve Program easement, the parent farm shall retain the allotments, quotas, and acreages.

(2) If the county committee determines that allotments, quotas, and acreages cannot be divided in the manner designated by the owner because of the conditions set forth in paragraph (c)(4) of this section, the owner shall be notified and permitted to revise the designation so as to meet the conditions in paragraph (c)(4) of this section. If the owner does not furnish a revised designation of allotments, quotas, and acreages within a reasonable time after such notification, or if the revised designation does not meet the conditions of paragraph (c)(4) of this section, the county committee will prorate the allotments, quotas, and acreages in accordance with paragraphs (d) through (g) of this section.

(3) If a parent farm is composed of tracts, under separate ownership, each separately owned tract being transferred in part shall be considered a separate farm and shall be constituted separately from the parent farm using the rules in paragraphs (d) through (g) of this section, as applicable, prior to application of the provisions of this paragraph.

(4) A landowner may designate, as provided in this paragraph, the manner in which allotments, quotas, and acreages are divided.

(i) The transferring owner and transferee shall file a signed written memorandum of understanding of the designation with the county committee before the farm is reconstituted and before a subsequent transfer of ownership of the land. The landowner shall designate the allotments, quotas, and acreage that shall be permanently reduced when the sum of the allotments, quotas, and acreages exceeds the cropland for the farm.

(ii) Where the part of the farm from which the ownership is being transferred was owned for a period of less than 3 years, the designation by landowner method shall not be available with respect to the transfer unless the county committee determines that the primary purpose of the ownership transfer was other than to retain or to sell allotments or quotas. In the absence of such a determination, and if the farm contains land which has been owned for less than 3 years, that part of the farm which has been owned for less than 3 years shall be considered as a separate farm and the allotments or quotas, shall be assigned to that part in accordance with paragraphs (d) through (g) of this section. Such apportionment shall be made prior to any designation of allotments and quotas, with respect to the part which has been owned for 3 years or more.

(5) The designation by landowner method is not applicable to crop allotments or quotas which are restricted to transfer within the county by lease, sale, or by owner, when the land on which the farm is located is in two or more counties.

(6) The designation by landowner method may be applied at the owner's request to land owned by any Indian Tribal Council which is leased to two or more producers for the production of any crop of a commodity for which an allotment, quota, or acreage has been established. If the land is leased to two or more producers, an Indian Tribal Council may request that the county committee divide the allotments, quotas, and acreages between the applicable tracts in the manner designated by the Council. The use of this method shall not be subject to the conditions of paragraph (c)(4).

(d)(1) The contribution method is the proration of a parent farm's allotments, quotas, and acreages to each tract as the tract contributed to the allotments, quotas, or acreages at the time of combination and may be used when the provisions of paragraphs (b) and (c) of this section do not apply. The contribution method shall be used to divide allotments and quotas for a farm that resulted from a combination which became effective during the 6-year period before the crop year for

which the reconstitution is effective. This method for dividing allotments and quotas shall be used beyond the 6-year period if FSA records are available to show the amount of contribution.

(2) The county committee determines with the concurrence of the State committee or representative thereof, that the use of the contribution method would not result in an equitable distribution of allotments and quotas, considering available land, cultural operations, and changes in type of farming. The contribution method shall not be used in cases involving the division of allotment or quota for any commodity for which there was no allotment or quota established at the time of the combination.

(e) The agricultural use method is the proration of contract acreage to the tracts being separated from the parent farm in the same proportion that the agricultural and related activity land for each tract bears to the agricultural and related activity land for the parent farm. This method of division shall be used if the provisions of paragraphs (b) through (d) of this section do not apply.

(f)(1) The cropland method is the proration of allotments and quotas to the tracts being separated from the parent farm in the same proportion that the cropland for each tract bears to the cropland for the parent farm. This method shall be used if the provisions of paragraphs (b) through (d) of this section do not apply unless the county committee determines that a division by the history method would result in allotments and quotas which are more representative than if the cropland method is used after taking into consideration the operation normally carried out on each tract for the commodities produced on the farm.

(2) The cropland method shall not be used to divide contract acreage.

(g)(1) The history method is the proration of allotments and quotas to the tracts being separated from the farm on the basis of the allotments and quotas determined to be representative of the operations normally carried out on each tract. The county committee may use the history method of dividing allotments and quotas when it:

(i) Determines that this method would result in the proration of allotments and quotas, more representative than the cropland method of division of the operation normally carried out on each tract; and

(ii) Obtains written consent of all owners to use the history method.

(2) Notwithstanding any other provision of this section, the county committee may waive the requirement for written consent of the owners for dividing allotments and quotas if the county committee determines that the use of the cropland method would result in an inequitable division of the parent farm's allotments and quotas and the use of the history method would provide more favorable results for all owners.

(3) The history method shall not be used to divide contract acreage.

(h)(1) Allotments, quotas, and acreages apportioned among the divided tracts pursuant to paragraphs (d), (e), (f) and (g) of this section may be increased or decreased with respect to a tract by as much as 10 percent of the allotment, quota, or acreage determined under such subsections for the parent farm if:

(i) The owners agree in writing; and

(ii) The county committee determines the method used did not provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in an allotment, quota, or acreage with respect to a tract pursuant to this paragraph shall be offset by a corresponding decrease for such allotments, quotas or acreages established with respect to the other tracts which constitute the farm.

(2) Farm program payment yields calculated for the resulting farms of a division performed according to paragraphs (d) through (g) may be increased or decreased if the county committee determines the method used did not provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in a farm program payment yield on a resulting farm shall be offset by a corresponding decrease on another resulting farm of the division.

(i) If a farm with burley tobacco quota is divided through reconstitution and one or more of the farms resulting from the division are apportioned less than 1,000 pounds of burley tobacco quota, the owners of such farms shall take action as provided in part 723 of this chapter to comply with the 1,000 pound minimum by July 1 of the current year or the quota shall be dropped. Exceptions to this are farms divided:

(1) Among family members;

(2) By the estate method; and

(3) When no sale or change in ownership of land occurs.

[61 FR 37552, July 18, 1996, as amended at 65 FR 65722, Nov. 2, 2000]

§ 718.206 Rules for determining allotments, quotas, and acreages when reconstitution is made by combination.

When two or more farms or tracts are combined for a year, that year's allotments, quotas, and acreages, with respect to the combined farm or tract, as required by applicable commodity regulations, shall not be greater than the sum of the allotments, quotas, and acreages for each of the farms or tracts comprising the combination, subject to the provisions of § 718.204.

[61 FR 37552, July 18, 1996; 61 FR 49049, Sept. 18, 1996]

§ 718.207 Eminent domain acquisitions.

(a) This section provides a uniform method for reallocating allotments and quotas, with respect to land involved in eminent domain acquisitions. Such allotments and quotas, in accordance with this section, may be pooled for the benefit of the owner who is displaced from the acquired farm by eminent domain acquisition. Such pooling shall be for a 3-year period from the date of displacement or during such other period as the displaced owner may request for the transfer of allotments and quotas, from the pool to other farms owned by such person.

(b) An eminent domain acquisition is a taking of title to land, or the taking of an impoundment easement to impound water on the land, or the taking of a flowage easement to intermittently flood the land, consummated with respect to land which is, or could be, so taken under the power of eminent domain by a Federal, State, or other agency. Such acquisition may be by court proceedings to condemn the land or by negotiation between the agency and the owner. An acquisition by an agency with respect to land not subject to the agency's power of eminent domain shall not be an eminent domain acquisition for purposes of this section. All land acquired by an agency for the intended project, including surrounding land not needed for the project but acquired as a package acquisition, shall be considered to be in the eminent domain acquisition if the agency expended funds for the package acquisition on the basis of its power of eminent domain.

(c) For purposes of this section, owner means the person, or persons in a joint ownership, having title to the land for a period of at least 12 months immediately prior to the date of transfer of title or grant of the impoundment or flowage easement under the eminent domain acquisition. If such person or persons have owned the land for less than such 12-month period, they may, nevertheless, be considered the owner if the State committee determines that such person or persons acquired the land for the purpose of carrying out farming operations and not for the purpose of obtaining status as an owner under this section. However, no person shall be considered the owner if he acquired the land subject to an eminent domain acquisition under an outstanding contract to an agency or an option by an agency or subject to pending condemnation proceedings. In any case where the current titleholders cannot be considered the owner for the purpose of this section, the State committee shall determine the person or persons who previously had title to the land and who qualify for status as the owner under the criteria in this paragraph.

(d) The owner shall be considered displaced from a farm which is subject to an eminent domain acquisition on the date:

(1) The owner loses possession of the land;

(2) The owner is voluntarily displaced if a binding contract for acquisition has been executed;

(3) The owner, in the case of a flowage easement, determines it is no longer practical to conduct farming operations on the land; or

(4) The owner loses possession of the land as lessee under a lease from the agency or its designee if the lease provided uninterrupted possession to the owner from the date of acquisition to the end of the lease or extensions of the lease.

(e) The owner shall notify the county committee in writing of the eminent domain acquisition and furnish the date of displacement within 30 days so that allotments and quotas may be pooled in accordance with this section. Failure to so notify the county committee shall result in the loss of the ability of the owner to extend the 3-year period of the pool.

(f) Whenever the county committee determines, by notice from the owner or otherwise, that an owner has been displaced from the farm, the county committee shall establish a pool for the allotments and quotas eligible for pooling under this section for a 3-year period beginning on the date of displacement. Pooled allotments and quotas shall be considered fully planted and, for each year in the pool, shall be established in accordance with applicable commodity regulations.

(g) Pooling is not permitted or required:

(1) If the county committee determines that an agency has authority under its eminent domain powers to acquire a farm for the continued production of an allotment or quota and does so acquire a farm only for such purpose and files a written notice with the county committee of the county in which the farm is located at the time of acquisition designating the allotment and quota to be produced on the farm, there shall be no pooling of such allotment and quota. Such farm allotments and quotas shall be established for the farm in accordance with applicable commodity regulations. For acreages, there shall be no pooling of the acreage under any circumstances if an agency acquires land and retains the land in an agricultural or related activity;

(2) If the displaced owner files written notice with the county committee of an intention to waive the right to have all the allotments and quotas or any part thereof pooled and the county committee determines that the displaced owner has not been coerced to waive such right, the allotments and quotas shall be retained on the agency acquired land;

(3) If an agency acquires part of a farm for non-farming purposes and the cropland on the land so acquired represents less than 15 percent of the total cropland on the farm, the allotments and quotas shall be retained on the portion of the farm not acquired by the agency and shall not be pooled;

(4) If an agency acquires part of a farm for non-farming purposes and the cropland on the land so acquired represents 15 percent or more of the total cropland on a farm, the allotments and quotas attributable to the acquired land shall be retained on the portion of the farm not acquired by the agency if the owner files a written request with the county committee for such retention. The amount of an allotment and quota which may be retained on the farm cannot exceed the land devoted to an agricultural or related activity. Allotments and quotas which are not retained shall be pooled; or

(5) If, prior to pooling, an owner files a request to transfer the allotments and quotas to other farms in the same county which are owned by such owner, the county committee may approve a direct transfer without the formal establishment of a pool. Such transfer shall be subject to the requirements of paragraph (j) of this section. This paragraph shall govern the release and reapportionment of pooled allotments and quotas notwithstanding other provisions of applicable commodity regulations.

(h) Pooled allotments and quotas may be released on an annual basis by the owner to a county committee during any year for which allotments and quotas are pooled and not otherwise transferred from the pool. The county committee may reapportion the released allotments and quotas to other farms in the same county that have allotments or quotas for the same commodity. Pooled allotments and quotas shall not be released on a permanent basis or surrendered after release to

the State committee for reapportionment in other counties. Reapportionment shall be on the basis of past acreage of the commodity, land, labor, and equipment available for the production of the commodity, crop rotation practices, and other physical factors affecting the production of the commodity. Pooled allotments and quotas which are released shall be considered to have been fully planted in the pool and not on the farm to which such allotments and quotas are reapportioned.

(i) Pooled allotments and quotas that may be transferred on a permanent or temporary basis by sale, lease, or by owner designation may be transferred permanently from the pool by the owner or temporarily for the duration of the pooled allotment or quota, subject to the terms and conditions for such transfers in the applicable commodity regulations. The transfer of tobacco acreage allotment or marketing quota shall be approved acre for acre.

(j) (1) The displaced owners may request a transfer of all or part of the pooled allotments and quotas to any other farm in the United States which is owned by the displaced owner, but only if there are farms in the receiving county with allotments and quotas, for the particular commodity or, if there are no such farms, the county committee determines that farms in the receiving county are suited for the production of the commodity. For purposes of this paragraph:

(i) Receiving farm means the farm to which transfer from the pool is to be made;

(ii) Receiving State and county committee mean those committees for the State and county in which the receiving farm is located; and

(iii) Transferring State and county committees mean those committees for the State and county in which the agency acquired farm is located.

(2) The displaced owner shall file with the receiving county committee written application for transfer of an allotment and quota from the pool within 3 years after the date of displacement. The application shall contain a certification from the owner that no agreement has been made with any person for the purpose of obtaining an allotment or quota from the pool for a person other than for the displaced owner. The owner shall attach to the application all pertinent documents pertaining to the current ownership or purchase of land and any leasing arrangements, such as the deed of trust or mortgage, a warranty deed, a note, sales agreement, and lease.

(3) The receiving county committee shall consider each application and determine whether the transfer from the pool shall be approved. Before an application is acted upon by the receiving county committee, the owner shall personally appear before the receiving county committee after reasonable notice, bring any additional pertinent documents as may be requested for examination by the receiving county committee, and answer all pertinent questions bearing on the proposed transfer. Such personal appearance requirement may be waived if the receiving county committee determines from facts presented to it on behalf of the owner that such personal appearance would unduly inconvenience the owner on account of illness or other good cause and such personal appearance would serve no useful purpose. Any action by the receiving county committee shall be subject to the approval required under paragraph (j)(5) of this section.

(4) The transfer from the pool will be approved by the receiving county committee only if the county committee determines that the owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish farming operations. The elements of such an acquisition shall include, but are not limited to, the following:

(i) Appropriate legal documents must establish title to the receiving farm;

(ii) If the displaced owner was the operator of the acquired farm at the date of displacement, such owner must personally operate and be the operator of the receiving farm for the first year that the allotment and quota is transferred;

(iii) If the displaced owner was not the operator of the acquired farm at the date of displacement and was not a producer on that farm because the leasing or rental agreement provided for

cash, fixed rent, or standing rent payment, such owner shall not be required to operate personally and be the operator of the receiving farm, but at least 75 percent of the allotments for the receiving farm must be planted on the receiving farm during the first year of the transfer. With respect to a commodity for which a quota is applicable but for which there is no acreage allotment, an acreage which is equal to the result of dividing the quota transferred to the receiving farms by the receiving farm's yield, multiplied by 75 percent must be planted during the first year of the transfer;

(iv) If the displaced owner was not the operator of the acquired farm at the date of displacement but was a producer on that farm at the date of displacement as the result of having received a share of the crops produced on the acquired farm, such displaced owner shall not be required to be the operator of the receiving farm but must be a producer on the receiving farm during the first year that an allotment or quota is transferred;

(v) The contractual arrangements between the displaced owner and the seller of the receiving farm must not contain a requirement that the receiving farm be leased to the seller or a person designated by or subject to the control of the seller. The seller or a person designated by or subject to the control of the seller may not lease the receiving farm for the first year the allotment or quota is transferred; and

(vi) The contractual arrangements under which the receiving farm was purchased or leased must be customary in the community where the receiving farm is located with respect to purchase price and timing and amount of purchase or rental payments.

(5) The approval by the receiving county committee of a transfer from the pool under this paragraph shall be effective upon concurrence by the State committee of the State where the receiving farm is located (the receiving State committee). Notwithstanding any other provision of this section, the receiving State committee may authorize a transfer from the pool in any case where the owner presents evidence satisfactory to the receiving State committee that:

(i) The eligibility requirements of paragraph (j)(4) (ii), (iii) and (iv) of this section cannot be met without substantial hardship because of illness, old age, multiple farm ownership, or lack of a dwelling on the farm to which an allotment or quota is to be transferred; or

(ii) The owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish farming operations for the displaced owner, even if the farm is leased to the seller of the farm for the first year for which the allotment or quota is transferred.

(6) Upon completion of all necessary approvals under this paragraph, the receiving county committee shall issue an appropriate notice of allotment and quota under the applicable commodity regulations, taking into consideration the land, labor, and equipment available for the production of the commodity, crop rotation practices, and the soil and other physical factors affecting the production of the commodity. For purposes of determining the amount of the allotment and quota available for transfer, the receiving county committee shall consider the receiving tract as a separate ownership. The acreage transferred from the pool shall not exceed the allotments and quotas, most recently established for the acquired farm placed in the pool. When all or a part of the allotment and quota placed in the pool is transferred and used to establish or increase the allotment and quota for other farms owned or purchased by the owner, all of the proportionate part of the past acreage history for the acquired farm shall be transferred to and considered for purposes of future allotments and quotas to have been planted on the receiving farm for which an allotment and quota, are established or increased under this section. If only a part of the available allotment and quota is transferred from the pool, the remaining part of the allotment and quota, shall remain in the pool for transfer to other farms of the owner until all such allotments and quotas have been transferred or until the period of eligibility for establishing or increasing allotments and quotas under this section has expired.

(7) If any allotment or quota is transferred under this section and it is later determined by the receiving county or State committee, or by the Deputy Administrator, that the transfer was obtained by misrepresentation by or on behalf of the owner, or that the conditions of paragraph (j)(4) of this section are not met, the allotment and quota for the receiving farm shall be reduced for each year the transfer purportedly was in effect by the amount attributable to the allotment or quota transferred from the pool. If the time period for the transfer of the allotment or quota from the pool has not expired, the amount of allotment or quota initially transferred from the pool shall be returned to the pool after the period of time has expired in which the displaced owner could exercise the right of administrative review. Any cancellation of the transfer of an allotment or quota by the receiving county committee shall be subject to approval by the receiving State committee. The receiving county committee shall issue a notice of any marketing quota and penalty as may be required in accordance with applicable commodity regulations.

(8) If the displaced owner files a request for transfer of pooled allotments or quotas, within the prescribed period for filing such request, but the request for transfer is filed during a year in which all or a part of the pooled allotments or quotas were released to the transferring county committee pursuant to paragraph (h), the application for transfer will be processed in the usual manner but the amount of the commodity released shall not be effective on the receiving farm until the succeeding year. When a request for transfer of pooled allotment or quota involves a transfer from one State to another, the receiving State committee shall obtain information from the transferring State committee as to whether any part of the allotment or quota for which the transfer is requested has been released to the transferring county committee for the current year.

(k)(1) When the displaced owner leases part but not all of the agency acquired land, such part shall be constituted as a separate farm on the date of the displacement of the owner from the land not so leased.

(2) If a parent farm consists of separate ownership tracts, each such tract being acquired in whole or in part shall be considered as a separate farm for purposes of paragraphs (g) (3) and (4) of this section.

(3) If a portion of a farm is acquired by an agency and the owner is displaced therefrom, the acquired portion shall be constituted as a separate farm on the date of displacement unless the allotments and quotas are retained on the portion not acquired as provided in paragraphs (g) (3) and (4) of this section, in which case the farm shall not be reconstituted but the farmland and cropland data shall be corrected on all appropriate records for the parent farm.

(l)(1) The displaced owner may file with the county committee a written designation of beneficiary of the rights in the allotments and quotas attributable to the acquired land in the event of the death of the displaced owner, and may revise such designation from time to time. The beneficiary of a deceased owner may exercise the right to continue a lease or negotiate a lease with the agency or its designee, the regular transfer rights with respect to farms owned by such beneficiary, and the release, sale, lease, and owner transfer rights under this section.

(2) If the displaced owner does not file a designation of beneficiary under paragraph (l)(1) and the displaced owner dies before displacement or after pooling occurs, the following persons shall be considered the beneficiary with the rights provided under paragraph (l)(1) of this section:

(i) The surviving joint owner of the farm where two persons own the farm as joint tenants with right of survivorship; and

(ii) The persons who succeed to the deceased displaced owner's interest under a will or by intestate succession. However, in the case of intestate succession, the person shall be limited to the surviving spouse, parent, sibling or child of the deceased displaced owner. In the settlement of the estate of the deceased displaced owner, the heirs may file a written agreement with the

county committee for the division of the deceased displaced owner's rights under this section.

(m)(1) No transfer from the pool under paragraph (h), (i), or (j) of this section shall be approved if there remains any unpaid marketing quota penalty due with respect to the marketing of the commodity from the acquired farm by the displaced owner, or if any of the commodity produced on the agency acquired farm has not been accounted for as required under applicable commodity regulations.

(2) If an allotment or quota for an acquired farm next established after the data of displacement would have been reduced because of false or improper identification of the commodity produced on or marketed from the farm, or as the result of a false acreage report, the allotment or quota shall be reduced in the pool in accordance with the applicable commodity regulations.

§ 718.208 Exempting Federal prison farms and Federal wildlife refuges.

A marketing penalty shall not be assessed with respect to any commodity which is produced on a Federal prison farm or Federal wildlife refuge. This exception does not apply to penalties incurred by an individual who has a separate interest in a crop which is subject to marketing quotas and was produced on a Federal prison farm or Federal wildlife refuge.

§ 718.209 Transfer of allotments and quotas—State public lands.

(a) Transfers of allotments and quotas between farms in the same county may be permitted where both farms are lands owned by the State.

(b) An application requesting the transfer of one or more of the allotments and quotas on a farm entirely comprised of lands owned by a State shall be filed with the county committee by the State. The application shall identify the farms as being within the same county, show that each farm is entirely comprised of lands owned by the State, and list the allotments and quotas requested to be transferred. Additional information with respect to the present operations on the farms, including all leasing arrangements, shall also be set forth in the application.

(c) The State committee shall establish the closing date for filing applications under paragraph (b) of this section for each year which shall be no later than the general planting date in the county for the commodity involved in the transfer.

(d)(1) Each transfer of an allotment and quota under this section shall be adjusted for differences in farm productivity if the yield projected for the year the transfer is to take effect for the farm to which transfer is made exceeds by more than ten percent the yield projected for the year the transfer is to take effect for the farm from which transfer is made. The county committee shall determine the amount of the allotment and quota to be transferred where a productivity adjustment is required to be made by dividing:

(i) The product of the yield for the farm from which the transfer is made and the acreage to be transferred from such farm, by

(ii) The yield for the farm to which the transfer is made.

(2) Acreage for the farm receiving the allotment or quota shall be adjusted by the same percentage as the allotment or quota being transferred is adjusted. The amount of the allotment and quota and related acreage transferred from the farm from which the transfer is made shall be the full amount, but the amount of all allotment or quota and related acreage for the farm to which the transfer is made shall be the adjusted amount.

(e) The amount of allotment and quota on a farm after a transfer under this section is made shall not exceed the average amount of allotment or quota of at least three farms with acreage of cropland similar to the farm receiving the transfer in the community having the applicable allotment acreage and quota on these farms.

(f) Each transfer of any allotment and quota shall be subject to the condition that an acreage equal to the allotment and quota transferred, before any productivity adjustment, shall be devoted to and maintained in permanent vegetative cover on the farm from which the transfer is made. The acreage to be devoted to and maintained in

permanent vegetative cover with respect to quota crops shall be determined by dividing the quota transferred by the yield of the farm from which the quota is transferred.

(g) Transfer of an allotment and quota under this section shall only be approved if:

(1) The county committee determines that a timely filed application has been received and that the provisions of this section have been met; and

(2) A representative of the State committee also determines that the provisions of this section have been met. If such a transfer is approved, the county committee shall issue revised notices of the allotment or quota for each farm affected by the transfer. If a county committee obtains evidence that the conditions applicable to any transfer under this section have not been met, a report of the facts shall be made to the State committee. If the State committee determines that such conditions have not been met, the transfer will be canceled, and the allotment and quota shall be retransferred to the original farm. Where cancellation and retransfer is required, the county committee shall issue revised notices of the allotment or quota showing the reasons for the cancellation of the transfer.

Subpart D—Equitable Relief From Ineligibility

SOURCE: 67 FR 66307, Oct. 31, 2002, unless otherwise noted.

§ 718.301 Applicability.

(a) This subpart is applicable to programs administered by the Farm Service Agency under chapters VII and XIV of this title, except for an agricultural credit program carried out under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 *et seq.*). Administration of this subpart shall be under the supervision of the Deputy Administrator, except that such authority shall not limit the exercise of authority allowed State Executive Directors of the Farm Service agency as provided for in § 718.307.

(b) Sections 718.303, 718.304, and 718.307 do not apply where the action for which relief is requested occurred before May 13, 2002. In such cases, authority that was effective prior to May 13, 2002, may be applied.

(c) Section 718.306 does not apply to a function performed under either section 376 of the Consolidated Farm and Rural Development Act (7U.S.C. 1921 *et seq.*), or a conservation program administered by the Natural Resources Conservation Service of the United States Department of Agriculture.

§ 718.302 Definitions and abbreviations.

In addition to the definitions provided in § 718.2 of this part, the following terms apply to this subpart:

Agricultural commodity means any agricultural commodity, food, feed, fiber, or livestock that is subject to a covered program.

Covered program means a program specified in § 718.301 of this subpart.

FSA means the Farm Service Agency of the United States Department of Agriculture.

OGC means the Office of the General Counsel of the United States Department of Agriculture.

SED means, for activities within a particular state, the State Executive Director of the United States Department of Agriculture, FSA, for that state.

§ 718.303 Reliance on incorrect actions or information.

(a) Notwithstanding any other law, action or inaction by a participant in a covered program that is to the detriment of the participant, and that is based upon good faith reliance on the action or advice of an authorized representative of a County or State FSA Committee, may be approved by the Administrator, FSA or the Executive Vice President,CCC, as applicable, or their designee, as meeting the requirements of the program, and benefits may be extended or payments made in accordance with § 718.305.

(b) This section applies only to a participant who relied upon the action of, or information provided by, a county or State FSA committee or an authorized representative of such committee and the participant acted, or failed to act, as a result of the Agency action or information. This part does not apply

to cases where the participant had sufficient reason to know that the action or information upon which they relied was improper or erroneous or where the participant acted in reliance on their own misunderstanding or misinterpretation of program provisions, notices or information.

§ 718.304 Failure to fully comply.

(a) Under a covered program, when the failure of a participant to fully comply with the terms and conditions of a program authorized by this chapter precludes the providing of payments or benefits, relief may be authorized in accordance with § 718.305 if the participant made a good faith effort to comply fully with the requirements of the covered program.

(b) This section only applies to participants who are determined by the FSA approval official to have made a good faith effort to comply fully with the terms and conditions of the program and rendered substantial performance.

§ 718.305 Forms of relief.

(a) The Administrator of FSA, Executive Vice President of CCC, or their designee, may authorize a participant in a covered program to:

(1) Retain loans, payments, or other benefits received under the covered program;

(2) Continue to receive loans, payments, and other benefits under the covered program;

(3) Continue to participate, in whole or in part, under any contract executed under the covered program;

(4) In the case of a conservation program, re-enroll all or part of the land covered by the program; and

(5) Receive such other equitable relief as determined to be appropriate.

(b) As a condition of receiving relief under this subpart, the participant may be required to remedy their failure to meet the program requirement, or mitigate its affects.

§ 718.306 Finality.

(a) A determination by a State or county FSA committee made on or after October 13, 1994, becomes final and binding 90 days from the date the application for benefits has been filed, and supporting documentation required to be supplied by the producer as a condition for eligibility for the particular program has been filed, unless one of the following conditions exist:

(1) The participant has requested an administrative review of the determination in accordance with part 780 of this chapter;

(2) The determination was based on misrepresentation, false statement, fraud, or willful misconduct by or on behalf of the participant;

(3) The determination was modified by the Administrator, FSA, or in the case of CCC programs conducted under Chapter XIV of this title, the Executive Vice President, CCC; or

(4) The participant had reason to know that the determination was erroneous.

(b) Should an erroneous determination become final under the provisions of this section, it shall only be effective through the year in which the error was found and communicated to the participant.

§ 718.307 Special relief approval authority for State Executive Directors.

(a) *General nature of the special authority.* Notwithstanding provisions in this subpart providing supervision and relief authority to other officials, an SED without further review by other officials (other than the Secretary) may grant relief to a participant under the provisions of §§ 718.303 and 718.304 as if the SED were the final arbiter within the agency of such matters so long as:

(1) The program matter with respect to which the relief is sought is a program matter in a covered program which is operated within the State under the control of the SED;

(2) The total amount of relief which will be provided to the person(that is, to the individual or entity that applies for the relief) by thatSED under this special authority for errors during that year is less than$20,000 (including in that calculation, any loan amount or other benefit of any kind payable for that year and any other year);

(3) The total amount of such relief which has been previously provided to

the participant using this special authority for errors in that year, as calculated above, is not more than $5,000;

(4) The total amount of loans, payments, and benefits of any kind for which relief is provided to similarly situated participants by the SED (or the SED's predecessor) for errors for any year under the authority provided in this section, as calculated above, is not more than $1,000,000.

(b) *Report of the exercise of the power.* A grant of relief shall be considered to be under this section and subject to the special finality provided in this section only if the SED grants the relief in writing when granting the relief to the party who will receive the benefit of such relief and only if, in that document, the SED declares that they are exercising that power. The SED must report the exercise of that power to the Deputy Administrator so that a full accounting may be made in keeping with the limitations of this section. Absent such a report, relief will not be considered to have been made under this section.

(c) *Additional limits on the authority.* The authority provided under this section does not extend to:

(1) The administration of payment limitations under part 1400 of this chapter (§§ 1001 to 1001F of 7 U.S.C. 1308 *et seq.*);

(2) The administration of payment limitations under a conservation program administered by the Secretary; or

(3) Highly erodible land and wetland conservation requirements under subtitles B or C of Title XII of the Food Security Act of 1985 (16 U.S.C.3811 *et seq.*) as administered under 7 CFR part 12.

(d) Relief may not be provided by the SED under this section until a written opinion or written acknowledgment is obtained from OGC that grounds exist for determination that the program participant has, in good faith, detrimentally relied on the guidance or actions of an authorized FSA representative in accordance with the provisions of this subpart, or that the producer otherwise failed, in good faith, to fully comply with the requirements of the program and that the granting of the relief is within the lawful authority of the SED.

(e) *Relation to other authorities.* The authority provided under this section is in addition to any other applicable authority that may allow relief. Generally, the SED may, without consultation other than with OGC, decide all matters under $20,000 but those decisions shall not be subject to modification within the Farm Service Agency to the extent provided for under the rules of this section.

PART 723—TOBACCO

Subpart A—General Provisions

Sec.

Subpart B—Allotments, Quotas, Yields, Transfers, Release and Reapportionment, History Acreages, and Forfeitures
